Video Transcript: Be Connected Online Courses
www.beconnected.esafety.gov.edu

To access the online services via be connected. Simply go to www.beconnected.esafety.gov.edu. As you can see in the top menu by here, then once you've on this page, click on join or sign in, which is in the top right-hand corner here, you will come to a page which will ask you to either sign in.

And this is the section you would fill out. If you already have registered on this website if you have not, simply scroll down and select join now.

Then it will ask you for your first name, your last name. So, go ahead. Okay, the next section of the name of the support centre, you want to choose full community centre, start hyping, full hem community centre, and it'll come up in the list.

Click on that, then fill out your email address next, choose a password. If you would like to receive further emails from Be Connected, you can tick this box, if not click on the next box and tick that to say that you agree with the terms and conditions, then sign up. Once you've clicked, sign on for free, it will bring you into the home page where you can then search for courses that you would like to complete.

If you go to topic library here, you would be able to search for any of the courses or topics you're interested in.

So, if we start with computers, search and a list of activities and courses around learning about computers will come up in the library.

It will start once you click on it and here it will tell you how many parts there are in this course.

And if you're ready to start, simply click start now and then click on start activity and you're off. That is as simple as it is, have fun.
